WATER FOR LIFE

This year's theme for World Water Day, which is celebrated each year on 22 March, is 'Coping with Water Scarcity'. Scarcity is a major concern in places where water resources are already stretched practically to the limit. The theme highlights the significance of cooperation and importance of an integrated approach to water resource management at both international and local levels. Equity and rights, cultural and ethical issues are essential to be addressed when dealing with limited water resources. Imbalances between availability and demand, the degradation of groundwater and surface....
